

# CAPABILITY STATEMENT

## Overview

Reids Mechweld is an OEM Division C Class-2461 Australian agricultural equipment manufacturing design and engineering company.

We are a privately owned proprietary limited company with a workshop in Western Australia's Wheatbelt region.

Since our establishment in 2000, we have provided quality engineering services to clients in industrial and agricultural industries. Our leadership group are highly experienced and are involved in all aspects of our projects.

Our professional team has been industry recognised for innovative solutions that exceed our client's expectations, projects are always delivered in an effective and efficient manner.

Reids Mechweld works in collaboration with clients, their project managers, stakeholders and other engineering partners to drive forward the development of sustainable, and profitable B2B transactions. We believe collaboration and communication are key to success in the design, engineering and manufacture of our products.

## Professional Engineering

CONCEPT - PROTOTYPE - DEVELOPMENT - MANUFACTURING

### Our Work

Reids Mechweld services a diverse client base in mining, construction and agriculture. With extensive joint venture and collaborative projects to our credit we continue to expand into new and exciting areas.

**Reids Mechweld enjoys finding solutions for your highly complex and detailed concepts and turning them into reality.**

### Steel Fabrication

- Machining / CNC
- Cutting / Casting
- Bespoke Metalwork

### Welding

- Highly Skilled
- Attention to Detail
- Industry Compliant

### Engineering Services Your Concepts to Reality

- Product Design
- Engineering Solutions
- Consultative

### Iron-CAD Analysis Testing & Commissioning

- Mechanical Drafting
- 3D Reality
- Product Modeling

### Custom Machinery Innovative Solutions

- Grapples
- Track Machines
- Post Removal

### Hydraulics Mechanical & Supply

- Component Supply
- Hoses / Couplings
- Hydraulic Mechanics

### Trailer Custom Design & Manufacture

- WMI 6K9
- Low volume VIN submitter accreditation

### Implements For all your heavy equipment

- Grader Blades
- Rock & Stick Rakes
- Buckets / Hay Forks

### Industry Affiliation

Reids Mechweld maintains strong industry associations and holds memberships with:

- SAI Global Engineering.
- The Australian Steel Institute.
- Chamber of Commerce and Industry (CCIWA).
- Australia Made Certification. licence number 13599
- John Deere Supplier Network - no. 0000375740
